DIMENSIONS 60x90 mm

This deck consists of 31 cards. The cards are divided among the players (minimum of 2 players). If a player gets a pair of the same cards, they are put aside. Then they start pulling cards - the person sitting on the left side of the player with most cards, pulls one card from the adjacent player. Then, the next player on the left pulls a card, etc. If they make a pair with the card they pull, the pair is put aside. The game is played until one of the players stays with only one card - the witch. It is the only card without a pair. The loser is punished with a previously determined funny punishment (for example, putting a dot with a pen on one's nose).
